ABOUT ME

OBJECTIVE

- Passionate Information Technology enthusiast with a passion for programming and Problem-solving and continuous learning skilled in developing projects using programming languages. As a lifelong learner, I am always seeking out new challenges and opportunities to expand my knowledge and skills in the field of IT. I am constantly pushing myself to stay ahead of the curve.

PROJECTS | SOFTWARE

BANNARI AMMAN INSTITUTE OF TECHNOLOGY Website Duplicate

- The aim is to replicate the look and feel of the original website using HTML, CSS, and JavaScript.
- BIT-Voice-Assistant, BIT-Chatter-Bot and
Bannari-Amman-Attendance-Monitoring-System

DARK PATTERN DETECTION IN E-COMMERCE WEBSITE | AI ML

- Created a extension for detecting dark pattern in any website.
- web scraped to detect any dark pattern and it is been highlighted within the page and show the type of dark pattern present.

Hand-Tracked-Car-Game-using-Pygame-and-MediaPipe

- The player controls the car using hand gestures detected via the webcam
- Also created a Multilingual Translation and Speech Synthesis Application

ACHIEVEMENTS
